SONIA J

BCA Graduate | Aspiring Software Developer

+91 9746972744 | soniajayesh760@gmail.com | Alappuzha, India | github.com/soniasonu | linkedin.com/in/soniajayesh

SUMMARY

Recent BCA graduate with a strong foundation in programming, web development, and database management. Skilled in Python, Django, Flask, SQL, HTML, CSS, and JavaScript through academic projects, certifications, and self-learning. Seeking an entry-level Software Developer or Python Developer role to apply technical skills and contribute to real-world software projects in a collaborative team.

TECHNICAL SKILLS

Languages: Python, C
Web & Frameworks: Django, Flask, HTML, CSS, JavaScript
Databases & Concepts: MySQL, SQL, DBMS, CRUD Operations, OOP
Tools: GitHub, Git, VS Code

PROJECTS

Velora Fragrances | Full-Stack E-Commerce Platform | GitHub 2026

- Built a full-stack e-commerce platform using Django, DRF, MySQL, and JavaScript, supporting 20+ products with authentication, cart, checkout, orders, and reviews.
- Integrated Razorpay with server-side signature verification, supporting Card/UPI and Cash on Delivery payments.
- Developed AI-powered natural-language search using Groq/Llama, with grounded product recommendations; deployed on Render and Netlify.

HelpHub – Medical Crowdfunding Platform | GitHub 2026

Final year project | Python, Django, MySQL, HTML/CSS

- Built a multi-role web platform (Admin, Hospital, Patient, Donor) for medical crowdfunding, supporting fund requests, approvals, and donation tracking
- Implemented role-based login and session management for 4 different user types
- Designed a relational database with 6+ tables for fund requests, categories, donations, and complaints, including a hospital-to-admin approval workflow

GPS-Based Toll Collection System | GitHub 2025

Python, Flask, MySQL, Android (Java)

- Built a multi-platform toll collection system with a Flask web admin panel, Android mobile app, and Java server component
- Implemented GPS-based toll detection, automated speed-violation fines, and a digital wallet for toll payments
- Designed a MySQL database to manage toll locations, vehicles, fines, and user feedback, with admin features to manage rates and view violation history.

CERTIFICATIONS

- freeCodeCamp: Python Developer Certification — Jun 2026
- Coursera: Introduction to Software Engineering — Dec 2025
- TCS iON Career Edge: Generative Ai Essential — Aug 2026
- Deloitte (via Forage): Data Analytics Job Simulation - Data Analysis & Forensic Technology — Jun 2026

EDUCATION

Bachelor of Computer Application (BCA) – Kerala University, Alappuzha | CGPA: 8.28 — 2023-2026
Diploma in Multilingual Computer Application – Orbit Education, Alappuzha — 2022
Higher Secondary Education - Kerala State Board — 2020-2022
